---

Elektra the warrior survives a near-death experience, becomes an assassin-for-hire, and tries to protect her two latest targets, a single father and his young daughter, from a group of supernatural assassins. In the ultimate battle between good and evil stands a warrior who makes the choice that tips the balance. A strong, mysterious and a deadly sexy action heroine - a lethal synthesis of grace and power. Not long after recovering from seemingly mortal wounds, Elektra has severed all ties with the world, living only for her next assignment. But in an unexpected turn of events, she is forced to make a decision that can take her life in a new direction - or destroy her. Key players in Elektra's journey are Stick, a blind martial arts master responsible for Elektra's "resurrection," and Mark Miller and Abby Miller, a father and daughter on the run from The Hand, a powerful syndicate whose members practice the dark version of the martial art Kimagure. "Elektra " is a perfect sequel for "Daredevil ". And if you are thinking think that it means something good, you would be wrong, because I hated "Daredevil" and I consider it one of the worst comic book adaptations into a film ever made . But "Elektra " is even worse than "Daredevil". Because if "Daredevil " at least have a coherent plot. "Elektra " doesn't. "Elektra" reach a astounding level of absurdity and boredom. One of the biggest flaws of this movie is that it pretends to make "Elektra " a family -friendly movie where there is a lot of martial arts and slapstick with some horrible effects, and of course , there isn't blood, so when the enemies die...they became green smoke! that could work if this movie were " Teenage Mutant Ninja Turtles " but all this attempt to turn the story of a killer into kiddie stuff is just ridiculous. The story chaotic and clichéd. The plot twist are laughable and the script isn't very helpful. The characters ,despite the effort of the cast aren't very interesting and the ending result is cheesy and corny. But the worst part of all ,is that "Elektra " is incredibly boring and painfully slow in development. The story never turn interesting or original and it turn incredibly dull and monotone soon. "Elektra " is one of the worst movies of the 2005. I would wish to say that at least it was so bad that was funny, but no, it wasn't. It was just boring. The best part of this film is its poster. In it you can see the square facial lines of the starring character, very interesting, BUT! The story doesn't exist. The dialogs are empty words. The backgrounds are good for nothing. I just couldn't get to the end of this film. Sorry Elektra, but my vote of 3 goes not to your acting, but to your training hours with the Sais. There is nothing to be gained from this viewing experience. Have you ever heard of bad commercial products? Well, this is the official definition. Keep clear. There are movies to be seen and there are movies better left alone. This Elektra tragedy is definitely of the latter kind. By the way "Daredevil" wasn't as bad as some would make you think. What it suffers from most is the sense of offhand storytelling that lies halfway between creative laziness and cost-cutting sloppiness. In order to be able to get more people into the cinemas, the movie was cut down for a PG-13 rating. When the DVD hit the store, the original Director's Cut was released. a5c7b9f00b
